The application has been amended as follows:

In claim 1, line 2, the phrase --- having Alzheimer's disease or vascular dementia --- has been inserted between word "animal" and the punctuation ",".

The following is an examiner's statement of reasons for allowance: The examiner has found claims 1-4, 8, 12, 13, 17, 18 and 20 to be unobvious over the prior art of record and therefore to be allowable over the prior art of record. The present invention relates to a method for improving memory performance in an animal having Alzheimer's disease or vascular dementia, the method comprising: administering to said animal a therapeutically effective dose of a derivative of a succinate ester of a given general formula (I), or a stereo-isomer or a pharmaceutically acceptable salt thereof. The method of the present invention, as recited in claims 1-4, 8, 12, 13, 17, 18 and 20 is different to that of the prior art, are not suggested in the prior art, nor are obvious over the prior art. For example, the prior art does not teach, suggests or make obvious the method or recited use of the said compounds that are characterized by unique and different structures and substituents as claimed in the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
